 (FOR KEY SEE REVERSE)

1. The Deutsche Handelszentrale Chemie (DEZ Chemie) has a number of items in its 1952 and 1953 Import Plans, that, as of November 1954, have not been procured. The reasons for this are either the lack of funds for the purchase of the items or the inclusion of the item in the Embargo List of Strategic Materials. In order to make it possible to report the Import Plans as having been fulfilled 100%, such items are being deleted from the revised Import Plans for 1952 and 1953.
2. Similar action is being taken to amend the 1954 Import Plan. The East German Government can thus announce, at the end of the year, that the 1954 Import Plan was fulfilled 100%, without announcing that the Plan was revised to eliminate items that could not be imported.
